Is your child having difficulties learning to talk?

Introducing

With

Michelle Sims & Associates

Speech and Language Therapist

BMedSci (Hons), Cert MRCSLT, MHPC, MASLTIP

How we can help...

Is your child:

- Having problems understanding you and following instructions?
- Using no or very few words?
- Difficult to understand
- Getting stuck on words (stammering)

Has your child been diagnosed with:

- A speech delay/disorder or verbal dyspraxia
- A language delay/disorder
- A stammer/stutter
- A voice disorder/dysphonia

If so we may be able to help.....

About Simply Speaking

Michelle Sims (previously Davies) graduated from Sheffield University in 2002 after completing a four year degree in Speech and Language Therapy at the university's medical school. During her graduation Michelle was presented with the prestigious "Tracey E. Cox Memorial Prize for Distinguished Performance in Clinical Practice Section of Part I and II". Since which Michelle has worked for Portsmouth City PCT (NHS) in the paediatric (children's) department, and continues to work for Sure Start supporting other professionals and parents for Havant Borough County Council.

Michelle has experience of working in a variety of clinical settings including mainstream schools, special schools, pre-schools and clinics. She has specific interests in speech and language delays/disorders, voice disorders and dysfluency (stammering). She has received additional training related to these difficulties including: stammering therapy (from the well known Michael Palin Centre, and Lidcombe therapy) voice therapy (Voice Craft), language therapy (including the use of Makaton/signing, and the Derbyshire Language Scheme), and speech therapy (including the use of The Nuffield Dyspraxia Scheme and Cued Articulation).

Michelle launched *Simply Speaking* in February 2005. We provide private Speech and Language Therapy services to children in the local area. We are based in a multidisciplinary practice in Chandler's Ford.

Price Guide

Prices are dependent on your needs but a general price guide is:

- £100 for an initial assessment (for an hour assessment and report)
- £53 for a therapy session plus parental liaison and follow up activities

Travel expenses, and additional work e.g. school liaison visits may result in additional charges. A clear contract of work to be undertaken and charges will be agreed upon commencing therapy.
